

Sanitary Sewer Evaluation Study

Franklin County Department of Sanitary Engineering is assessing the sanitary sewer system in your area. Local engineering firm Brown and Caldwell and its subcontractors are performing this evaluation on behalf of the county.

Crews may need to enter your yard to access manholes and sewer lines located within county easements. The laws of Ohio, Ohio Revised Code Section 163.03, allow such entries.

Crews will be in your area . If you have locked gates or outdoor pets contained outside between 7:00 a.m. and 6:00 p.m., Monday through Friday, please contact Rhonda Harris or Elizabeth Ehret of Brown and Caldwell at **614-410-6144** to coordinate access or if you have other questions.

Crews are unable to answer any questions about your bill, meter, water or sewer service. If desired, please direct those questions to the Franklin County Department of Sanitary Engineering at **614-525-3940**.

Thank you for your cooperation.
